Project Information

These was a proposal for a portuguese magazine when we are invited to create a Christmas ambience, we have done an unusual Christmas with different colours for a couple in love, we've used sculpultures in paper, macarrons, parfumed writting candles, wallpaper as tete-a-tete... because we always like to do diferent things.

Project Information

Located in one of the most creative areas in Lisbon, Ligia Casanova's Atelier blends fantasy with cosiness in a space where you sense all the atmosphere of a true home. The living room and kitchen welcome clients and gests playing with the high celings and little details that you enjoy discovering along the way. The kids room travels you to childhood with little planets in paper machée flying over the head. Above all, the working space melts with all the rest, giving a true sense of comfort and joy.
